CHC Innovations:

- CHC Vision:
  - Healthy communities.
  - Populations and focused on improving health outcomes, as well as building primary health care system committed to caring for underserved and uninsured

- CHC NP Residency Model:
  - Model structure:
    - 12 months of employment at CHC, Inc.
    - Clear learning objectives and evaluation plan
    - Continuity training in the CHC model of high performance health system: access, continuity, planned care, team-based, prevention focused, use of electronic health record
    - Residents participate in on-call and weekend rotations, clinical committees and task forces

- Fellowship has emerged as a way to train new nurse practitioners in specialty and sub-specialty care such as HIV/AIDS and hospitalist care, pulling new NPs away from primary care, which has not had the option of choosing a formal residency in primary care

- CHC Model eMentoring Clinics: Clinics Rotations
  - Didactic Independent Continuity
  - Specialty

- Community Health Center, Inc.

- New NP Residency Programs

- Program Differences:
  - Orientation ranges from one to two weeks
  - CHC orientation is four weeks
  - One-residency reports to orientation is six weeks

- Programmatic terminology across the programs is inconsistent

- Undergraduate curriculum of all programs is consistent

- Programmatic terminology across the programs is inconsistent

- New NP Residency Programs

- Various Program Features:
  - Admissions Selection Committee
  - Commitment to interdisciplinary education and training
  - Didactic sessions aimed to give priority to topics that will be used earlier or more often
  - Didactic sessions delivered to both NP and medical residents
  - Elective rotations including inpatient rounding, call and resident-specific areas of interest
  - Exchange rotations with partner NP Residency Programs
  - Faculty support through the local university
  - Integration with Medical and Dental Residencies for national interprofessional rotations and community health
  - Participation in hospital rotations and community events
  - Resident support through journaling on line “moodle”
  - Resident designed project
  - Resident support through journaling on line “moodle”

- Programmatic terminology across the programs is inconsistent

- Early Challenges and Constraints:
  - Adapting clinical site
  - Full engagement of organization
  - Impact on productivity goals
  - Full engagement of organization
  - Differentiating the role of students and residents
  - Full engagement of organization
  - Adequate support staff
  - Sustainable funding model

- Successful implementation requires more than a commitment to training the next generation of PCPs after

- CHC’s Weitzman Center is well suited to serve as a centralized hub for CHC Residency Programs

- Data provided by NP Residency Program Coordinators
